Criterion II Teaching Learning and Evaluation

2.3 - Teaching-Learning Process

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

Student-Centric Approach in Teaching Learning

The institute follows a versatile assessment of learning levels of students through a common procedure aided with programme specific assessments in addition to the traditional teaching-learning methods. These procedures are dynamic in nature and are updated and innovated to assess the learning in student centric way. The methodologies adopted for enhancement of Teaching –Learning are as below:
