	Objective and Outcome	

Title of the Event: Workshop on "E - Waste Management"

Date and Time of the Event: On 14/03/2024 at 10:30 am to 11:30 am

Venue: Seminar Hall

Resource Person: Dr. Rajan Sharma (Project Manager, Pahal NGO, Jalandhar)

Number of Students benefitted: 108 Students

Objective: Disposal of unwanted electronic gadgets

In India, the quantity of e - waste or electronic waste has now become a major problem. The major objective of e - waste management is to reduce, reuse, and recycle. Some of the e - waste consists of valuable covering or materials inside which can be reused or recycled. Whereas some of the e - waste may contain hazardous chemical materials which should be disposed of carefully without causing harm to nature.

Outcome: Mr. Rajan Sharma, working as a Project Manager, Pahal NGO, Jalandhar, presented a workshop on the topic of "E - Waste Management". He discussed with the students that how disposing or reducing waste will not only protect the environment but will also save on costs or reduce expenses for disposal. In the same way, recycling and / or reusing the waste that is produced benefits the environment by lessening the need to extract resources and lowers the potential for contamination. He also discussed with the students that the major everyday electronic products are television, computer, air conditioners, fax machines, mobile phones, etc. Compared to the olden days the e - waste products have increased abundantly nowadays. And a proper methodology should be followed to control the pollution caused by e - waste products.

Respected sir / madam

I hope this message finds you well. I am writing to propose the organization of an E-Waste Workshop at your college, aimed at creating awareness and promoting responsible electronic waste management among students.

The workshop would cover topics such as the environmental impact of improper e-waste disposal, recycling methods, and the importance of sustainable practices. We believe this initiative aligns with college's commitment to environmental sustainability and responsible citizenship.

We are confident that this workshop will not only educate our students but also empower them to contribute positively to the community and the environment.

Please let us know if we can schedule a meeting to discuss this proposal further. We appreciate your consideration and support for this important initiative.

Subject: Acknowledgement for an on-ground awareness session on E- Waste Management conducted under the Karo Sambhav-Pahal project.

TO WHOMSOEVER IT MAY CONCERN

This is to acknowledge that Karo Sambhav conducted an on-ground awareness session on "E-Waste Management" held for Amritsar Group of Colleges, Amritsar on 14th March, 2024.

The representative from Pahal, Dr. Rajan Sharma, facilitated awareness among our staff and students on various aspects of e-waste management, e-waste rules, circular economy, and leading a sustainable way of life.

Number of participants attended the session from our organization are **115**.

We thank you for deepening our understanding of this topic. We will continue to contribute to the mission of making recycling a way of life for a billion people through our actions.

Warm Regards.
