|--|---------------------------------------|--|

Objectives:

Introduction to Cloud Computing:

- Provide a clear definition of cloud computing and its fundamental characteristics (e.g., on-demand resources, scalability, pay-as-you-go).
- Explain the various service models (IaaS, PaaS, SaaS) and deployment models (public, private, hybrid).

Overview of AWS:

- Introduce AWS as a major cloud service provider, highlighting its market position and key services.
- Explain the benefits of using AWS for different types of businesses and applications.

AWS Core Services:

- Detail the core AWS services such as EC2 (compute), S3 (storage), RDS (databases), and IAM (identity and access management).
- Demonstrate basic use cases and features of these services.

Cost Management and Best Practices:

- Explain AWS pricing models and how to estimate costs using tools like the AWS Pricing Calculator.
- Share best practices for managing and optimizing AWS costs.

Real-World Applications and Case Studies:

- Present real-world scenarios or case studies of businesses that have successfully implemented AWS solutions.
- Discuss how AWS solutions address specific challenges and improve operational efficiency.

Outcomes:

Understanding Cloud Computing Concepts:

- Attendees should be able to define cloud computing, identify its key characteristics, and distinguish between different service and deployment models.

Familiarity with AWS:

- Participants will gain a basic understanding of AWS, including its core services and how they can be utilized for various computing needs.

Basic AWS Navigation Skills:

- Attendees should be able to navigate the AWS Management Console and identify key services relevant to their needs.

Cost Awareness:

- Participants will understand how AWS pricing works and be able to use tools to estimate and manage costs effectively.

Application of Knowledge:

- Attendees should be able to conceptualize how AWS services can be applied to real-world scenarios and potentially start exploring AWS for their own projects or businesses.

Invitation Letter for Guest Lecture

Department of Computer Applications

Date:- 13/9/24

AGC/DCA/2735

Tanisha Sharma, Technical Trainer

Webcooks Technologies Pvt Ltd

Respected Mam,

On behalf of the Department of Computer Applications at Amritsar Group of Colleges it is my pleasure to extend an invitation to you to deliver a guest lecture on **Cloud Computing “Amazon Web Services”**. We have been greatly impressed by your work and we believe that your insights would be incredibly valuable to our students and faculty.

The details of the event are as follows:

Date: [19th Sep 2024]

Time: [10.00am]

We would be honored if you could share your expertise on **Cloud Computing “Amazon Web Services”** with us. Your lecture would be followed by a Q&A session to engage in further discussion with our students.

Please let us know your availability for the proposed date. We are flexible and willing to accommodate your schedule to ensure your participation.

Thank you for considering our invitation. We look forward to the possibility of welcoming you to Amritsar Group of Colleges and benefiting from your valuable insights.

Warm regards, sk

Dr. Sachin Khurana

HOD, DCA

Subject: Appreciation letter for guest lecture on Cloud Computing “Amazon Web Services”

Respected Madam,

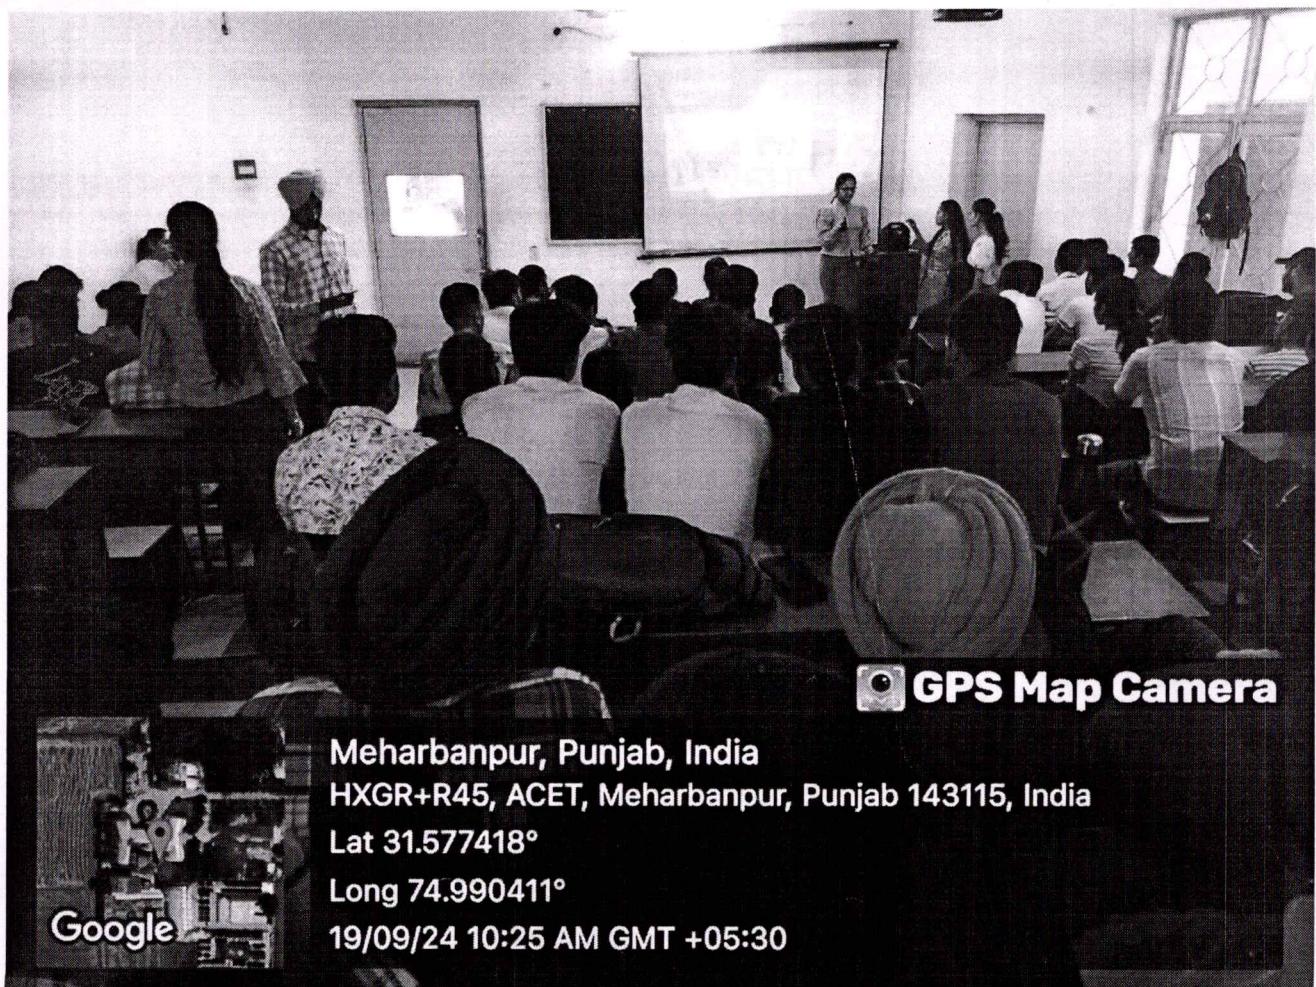

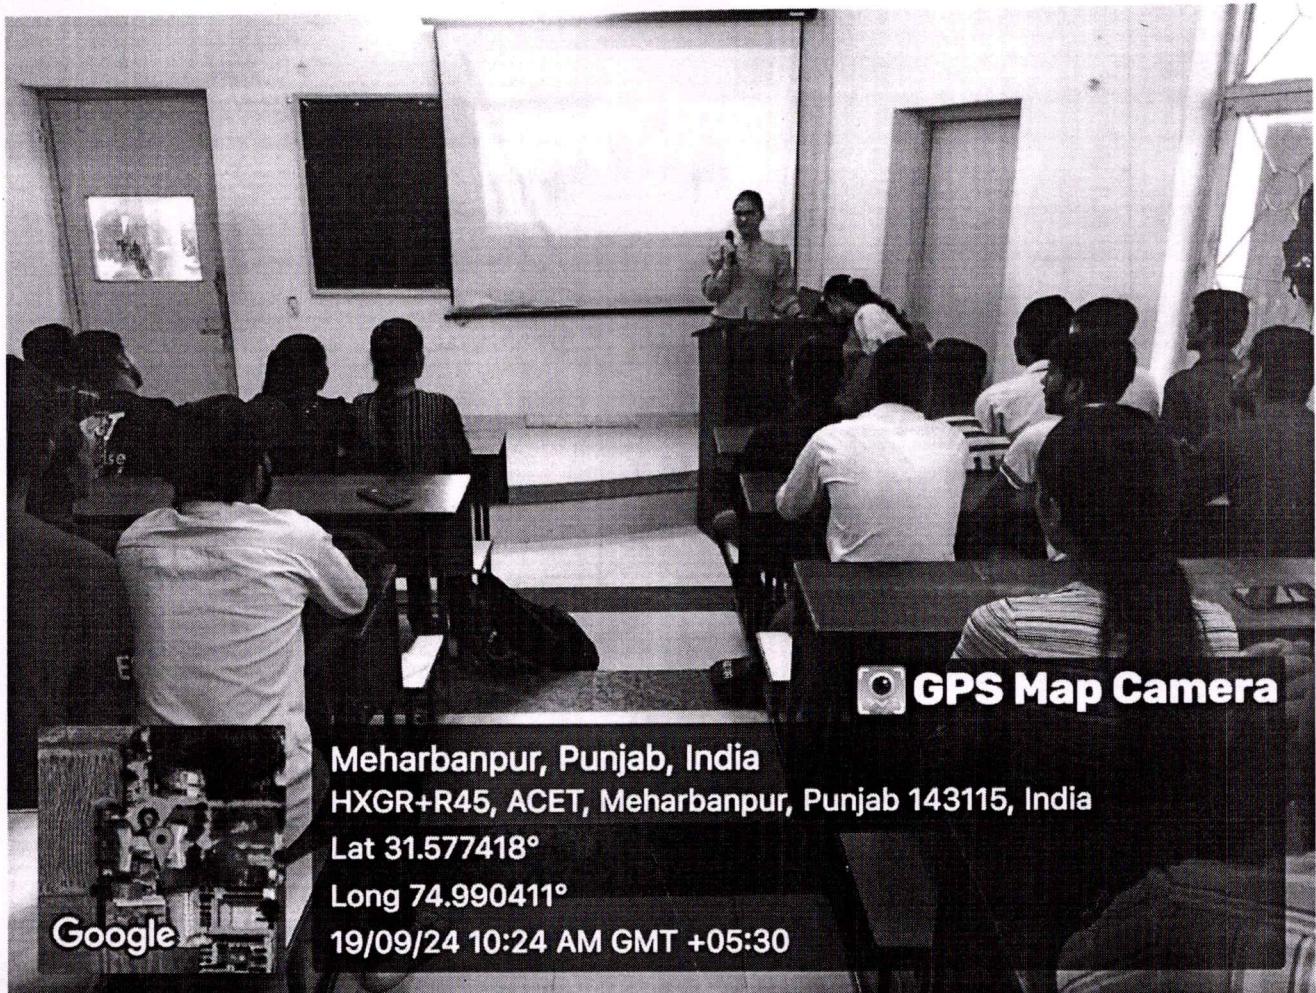

On behalf of our department team (Department of Computer Applications) at Amritsar Group of Colleges, we would like to express our gratitude to you for a guest lecture on **Cloud Computing “Amazon Web Services”** for students of BCA 5th Sem & MCA 3th Sem. Your lecture on the subject was really informative and everyone present were not only in awe of your knowledge but also greatly impressed by your style.

It was great pleasure to listen to your lecture and learn so much from it. I take this opportunity to thank you on behalf of our entire team and students for taking out some time from your busy schedule and share knowledge with our students and faculty.

Thanks, and regards

Dr. Sachin Khurana

BCA-1st

Problem Solving Using C

UGCA 1903

MST - II

Max Marks: 24

Time: 01 Hr30 minutes

Instruction to candidates:

- Attempt all Questions from Section - A. Each Question carries **TWO** marks.
- Attempt all Questions from Section - B. Each Question carries **SIX** marks.

Section - A

(6*2=12)

QUE 1

- What is array? How it is declared? [CO4]
- What is recursion? Illustrate with example.[CO4]
- Program that demonstrates initialization of the structure variable.[CO5]
- Difference between structure and array [CO5]
- What are different types of file operations in C language?[CO6]
- How pointers are initialized?[CO6]

Section - B

(2*6=12)

QUE 2 What do you mean by functions? Discuss in detail various methods of passing functions.[CO4]

QUE 3 Elaborate the concept of pointer with the help of program to display values and address of variables using pointer. [CO6]

Course Outcomes

| CO# | Course Outcomes |
|-----|---|
| Co1 | Design algorithms and choose the right data types and statements for programs. |
| CO2 | Learn the implementation of simple 'C' program, operators and Console I/O function. |
| CO3 | Learning concepts of control statements by writing programs control the sequence of the program and give logical outputs. |
| CO4 | Understand the declaration and implementation of arrays and functions. |
| CO5 | Learn the structures declaration, initialization and implementation. |
| CO6 | Understand the file operations, file pointers and importance of pre-processor directives. |
