Message from General Chair

Good engineering education is a key to the progress, strength and development of any nation. It is more relevant to India as we face many issues related with different domains of human life. We need different solutions who can work in the local context. Transforming Engineering Education will be the backbone of such change which will induce vibrancy, innovation and new jobs in India. For this to happen we need to work on three things. 1. Faculty 2. Faculty 3. Faculty Rest will follow automatically. Faculty needs cutting edge training in their own domain of research and teaching apart from training in the educational technology and pedagogy. We need to set up world class training centers which with modular and flexible human resources as well as infrastructure. We need to create groups of excellence in core engineering and science areas which are spread evenly in all parts of India. Accreditations and Reviews may be helpful but will only serve the partial purpose unless we create the world class human resources who are running these Engineering Institution. Administrators of these institutions are require specialized training as many of them are too naive to run these institutions professionally with the world vision.

Keynote Speakers

Speaker **Dr. Timothy Savage**, *Associate Dean for Online Education, Trinity College Dublin*

Biography

Tim Savage was appointed as Trinity College Dublin, the University of Dublin's first Associate Dean for Online Education in 2013. His role is to provide academic leadership to technology-enhanced and online learning across College and to lead the online education initiative. Since that time his team at Trinity College Dublin has launched a portfolio of fully online postgraduate courses and developed Ireland's first Massive Open Online Courses (MOOCs). The success of these initiatives is having a real and immediate impact not only on students' lives but also across the face-to-face campus and potentially into the wider community.

Tim joined Trinity College Dublin in 2002 as a lecturer in technology and learning and since that time has been experimenting with, researching, and teaching the role technology has to play in enhancing higher education, widening participation and the creation of new models of learning among new cohorts of learners.

Trinity College Dublin, the University of Dublin is ranked 1st in Ireland and in the top 100 world universities by the QS World University Rankings.

Speaker **Dr. Deepak Garg**, *Head, Computer Science Department, Thapar University, Patiala
Chair, IEEE Education Society, India Council, IEEE Computer Society, India Council*

Biography

An astute performer with proven expertise in devising and effectuating policies aimed at ensuring smooth running of operations and execution of academic, research and administration tasks within the professional college/University premises; possesses potential for distinctive achievement through strategy, innovation, implementation and control.

Currently working as a faculty in the Computer Science and Engineering Department with Thapar University and having 16 years rich cross-functional experience in continuously delivering in the capacity of teacher and researcher.

Undertaken several prestigious research and consultancy assignments. Hands on experience in guiding B.Tech., M.Tech. and PhD students and producing excellent results.

Esteemed member of several professional organizations, editorial board of various journals and 98 publications to the credit. Conducted many seminars/ conferences/ workshops. He is Chair, IEEE Computer Society India Council and Chair, IEEE Education Society India Council and Chair, ACM SIGACT North India. He is Coordinator of NBA Nodal Center. He has visited Trinity College, Dublin few times for formalizing and executing contemporization program to take the University to next level of excellence. He is an ABET leader and has attended institute for the development of Excellence In Assessment Leadership (IDEAL) Workshop in US. The Details can be seen at www.gdeepak.com

Speaker

Prof. R. Mahadevan, *IEEE Senior Member & ABET IDEAL Scholar*
Vice Chair, IEEE Education Society, India Council

Biography

Mahadevan Ramachandran is the Principal Advisor & ED, at AasaaneduCareand CEO at Kredosystems, Chennai, India. As Principal Advisor, Mahadevan specializes on the implementation of processes and systems towards quality engineering education; national accreditations like NBA & NAAC; ISO 9001:2008 certification; and MalcomBalbridge Quality Model. More than 150 plus Institutions have availed his advisory services towards the same since 2004. R Mahadevan has trained more than 20,000 faculty members on Quality Systems towards Accreditations , Outcome Based Education, PEOs, POs & COs, Assessments etc. And conducted various workshops on Accreditations, Best Practices for Strategic Growth, All India Council for Technical Education's(AICTE) e-portal etc. for Principals/Deans/Directors/Senior Professors at Chennai, Bangalore, Pune, Hyderabad and Nagpur.

Mahadevan commenced his career as R&D Engineer at CMC Ltd., Hyderabad. He became a techno-entrepreneur in 1986 and catalyzed the development of innovative software and hardware products in Indian IT Industry. During 1999-2003, Mahadevan became an adjunct Professor in Computer Science Engineering, on invitation, and then got fascinated with academics and quality systems. From 2004 onwards, he is actively involved in quality initiatives at engineering and professional institutes. In 2014, he has ventured again into software development through Kredosystems.

Mahadevan has more than 31 years of professional experience in software industry and in academics. Mahadevan has to his credit a number of papers on Accreditation and Total Quality Management and had given session presentations at both 2014 and 2015 ABET Symposia, in USA. Mahadevan has become an ABET IDEAL Scholar (Institute for the Development of Excellence in Assessment Leadership)in August 2014.

Speaker

Dr. Rajneesh Arora, *Former Vice Chancellor, Punjab Technical University (PTU)*

Biography

Dr. Rajneesh Arora through his rich expertise and extensive experience in Research and Innovation, Policy Transformation and Institution building has been instrumental in advancement of higher education (engineering and technical streams) in Punjab and turning the state into a technically qualified society. Shaping careers of more than 4,00,000 students is certainly no ordinary achievement, however, he has been doing this with élan, year after year. As a visionary he is working towards cohesiveness amidst all Universities and institutes of Punjab to create a state brand value.

He did his Ph.d - (1989) and B.Tech - (1979) in electrical engineering from (IIT-D) Indian Institute of Technology , Delhi. Dr. Arora studied in DAV School Amritsar. He has a unique record of getting Gold Medal (1st in State) both in Matric (1973) and Higher Secondary (1974).

Currently Dr. Rajneesh Arora is working as a Managing Director at Amritsar College of engineering and technology, Amritsar.
