Deptt. of Civil Engineering
Amritsar College of Engineering
& Technology, Amritsar

Student Mentorship Programme (SMP)

Student Mentorship program (SMP) for closely monitoring the professional & personal development (like enrichment of practical skills as per the specialization of student, academic and non-academic performance etc.) of students studying at ACET. With this in mind, the college has a mentorship programme wherein each faculty members are assigned around 20 students and conduct regular meetings to listen to their issues, guide them on their overall personality development and motivate them to excel in both academic and non-academic fields.

Objectives of the Practice:

- To retain new students by helping them to become more familiar with the ACET culture, and how to accomplish their studies.
- To help current students grow and develop professionally as ACET students.
- To foster a cooperative network among the students, and with ACET faculty.
- To encourage student to meet their educational and professional goals and objectives.
- To provide moral, technical and any other support required to our students in a friendly manner in absence of their guardians.
- To encourage the students towards regular interactions with mentors so as to build a good rapport with the mentor and the institution, ensuring that they get all the care, advice and support provided by the mentor for their development.
- To provide an opportunity for the student to express and share their feelings with the mentor, discuss conflicting issues faced by them and seek solutions on a regular basis
- To motivate the students about their responsibility towards our environment, so under "One Student One Plant" initiative of the college, students are committed to take care of the sapling planted by them with time-to-time selfie proof.

Duties of Mentors:

- Mentors are required to keep track of their mentees with reference to academics, attendance, discipline and overall development.
- Mentors are to record their findings in their personal mentor files.
- Any complaints or compliments regarding mentees should be brought to the notice of the respective mentors.
- Mentors, if required are to schedule face to face counseling with their mentees.

The Practice:

The SMP activities encourage academic excellence, self-esteem, and personal growth of the students. Following are few points about SMP practiced at ACET:

- Our students are briefed about SMP program at the induction program.
- By pairing faculty mentors with mentee students over the course & with scheduled meetings in a comfortable environment.

Principal,
Amritsar Group of Colleges,
AMRITSAR.

- A faculty member work as a mentor for a group of 15 - 20 students for counseling and better performance of students.
- Opportunity is given to students to talk about their academic needs, share their goals, and discuss concerns and needs.
- In the scheduled meetings students are motivated to take care of the sapling planted by them, under "One Student One Plant" initiative of the college which connects them with environment also.

The Context:

SMP was been initiated by analyzing certain issues and the interests of the students. These students are in need of a keen listener to listen to their issues and required some mentor to help them. All this led to the process of adopting mentoring program for the students so as to instill confidence and enhance their overall development. The partnership between a teacher mentor and mentee students is to build upon a foundation of trust, respect, and professionalism. As a mentee, ACET students have the opportunity to:

- Learn and gain insight about specific jobs, career paths, organizational cultures, and industries of the specialization concerned.
- Receive constructive feedback about personal skills from mentors through verbal interactions.
- Learn how graduates face challenges and find opportunities in today's complex and competitive industrial environment.

Evidence of Success:

- Mentoring has helped the ACET students to take up challenges, overcome obstacles and difficulties in their day-to-day life.
- Mentoring has helped the mentor to know and relate with the students better, develop judgment skills and build a better rapport with the students.
- Head of departments, guardians and all other relevant stakeholders are aware and appreciative of the help the students get through the mentoring program at ACET.
- On the whole, the mentor acts like a parent dedicated to foster their individual growth.

Online Mentoring during COVID:

During the tough times of lockdown, ACET builds strong mentoring relation between student and faculty through the telephonic call to its each student and listen to their problems (both academics and personal) and motivate them to handle the situations with confidence. Live classes through online video conferencing software Zoom portal were arranged for them and study material was also shared. Few issues like academic concerns, social (family and peer) pressure etc, leading to feelings of loneliness, low confidence, anxiety, stress, etc. were handled effectively by respective mentors.

Some Glimpses of SMP activities

1. **Sample of filled performa showing the action taken by assigned mentor and status of plantation**
